very materially and that a certain move will be made for the purpose of counteracting influences which have hitherto had considerable to do with the policy of the Police Board.

It is rumored that the Police Commissioners are about to reorganize the Board, and that President James J. Martin will not have a word to say. Commissioner McClave, it is said, will be the man selected as President of the Board, and necessarily it will be Commissioners Sheehan and MacLean who will vote to put him there. It is said that this scheme will result in establishing the Police Board on a non-partinan basis in anticipation of the move already made by Boss Platt in an appeal to the Legislature.

The first thought in the contemplated

The first thought in the contemplated plan was to make Commissioner MacLean President of the oBard, but it is said that he declined the honor on the ground that his term of office expires about May 1. Commissioner MacLean, the story goes, is suspicious, to say the least, of any move on the part of Commissioners Sheehan and McClave. His refusal to become the figure-head of the Commissioners loaded the weight on Mr. McClave's shoulders.

Just what is the reason for such a move on the part of Commissioners Steehan, McClave's shoulders.

It stands on a par with Commissioner Sheehan's recent vain attempt to deal with Dr. Parkhurst.

With the exception of Commissioner Sheehan's recent vain attempt to deal with Dr. Parkhurst.

With the exception of Commissioner Sheehan, who presides to-day at the trial of delinquent policemen, none of the Commissioners had arrived at Headquarters up to 11 A. M. Mr. Sheehan was seen. He had not heard of a move to reorganize the Board, he said. The subject did not apparently surprise him any. "I don't know anything about it," Commissioner Sheehan said, and at this he stopped, refusing to discuss the matter further.
